www.fabroca.com

A person is silhouetted against a clear blue sky while balancing on a thin tightrope. The rope is stretched between two points, with one end anchored to a jagged, rocky mountain peak in the foreground. The peak is bathed in warm, golden light, and the head of a cow is visible on its side, looking towards the tightrope walker. The background shows a vast, hazy mountain range under a soft, hazy sky. The overall scene conveys a sense of balance and harmony between nature and human activity.

FLAVOUR

On a tight rope
or on a peak ...
balance is vital!

MEAT QUALITY IS AT THE HEART OF OUR CONCERNS.

Let's not lose sight of our purpose!

Let's not lose sight of our purpose!

It's enough to drive you crazy! The relentless attacks against meat are never-ending!

The programme «Questions à la une» in May on RTBF reached new heights of vilification and defamation. Unfortunately, it reflects the current trend of public opinion. Faced with this sad evolution, we have to respond by denouncing strong and loud the misinformation and stigma to which we are subject.

Unfortunately, we can only turn this around in the long term and today, to survive, we have to adapt to the market while reducing production costs.

There are ever fewer carnivores out there and our goal must be to satisfy them so that they do not give in to the temptation of foreign meat.

The strength of double-muscled cattle is that they produce tender meat and a maximum of noble cuts. To ensure the best use of these noble cuts, they must be tasty. Today there are animals that are so meaty that they produce meat that is too lean and therefore too dry. These animals are damaging the image of our race and have no real purpose outside producing breeding bulls earmarked for industrial crossbreeding or to improve the conformation of animals that do not conform. On the other hand, they must no longer be considered as the main objective of our breed. Producing meat that is tasty but not too fatty, producing a carcass with high yields but that is flavourful, producing a double-muscled animal that does not cost too much or an economically superior animal that meets the conformation criteria are challenges that are sometimes difficult to reconcile but that determine our future. Selecting has become a real balancing act!

Maintaining our distinctiveness while remaining competitive is the challenge that we want to help you meet in this time of crisis. More than ever, to achieve this goal, functional concerns such as fertility or ease of breeding are our selection priorities.

To do so, we have further expanded our range of bulls so that everyone can find their balance ... but it's no accident that Nayakou, our most fertile bull and the one that will probably give the most growth, is our best seller. The market trend is towards the hardy selection that has earned Fabroca its reputation.

We would like to take this opportunity to thank you for your confidence. Let us end with a positive message: outside Europe, meat prices and consumption volumes are on the rise ... We can only hope that we will soon be able to take advantage of this global trend thanks to new exports (such as Turkey, which has improved the trade in weanlings during recent months) and that those who lobby on our behalf help us restore our image!

On behalf of the Fabroca team
Benoît

ALADIN D'HONTOIR

(born and bought at André Willem in Sommière)

BE 4-57323722 / Semence: 15480

2 years 5 months, 1001 kg, 1,44 m (+6)

born on 08/10/2012

The selection of the Hontoir livestock farm reflects the strong character of André Willem (0479/43 68 72): clear objectives and a straight line to get there! He makes no concession when it comes to selecting traits related to profitability. A calf must suck and a cow must suckle while feeding on simple food and producing kilos. It is not by chance that the reproductive bulls born in Sommière are renowned for their efficiency in the herd and that, as part of the genome project, the ADG of the Hontoir calves are among the best of the race.

Aladin is a heavy and very complete bull whose parents and grandparents combine size and musculature.

The first 3 daughters of Aladin at B. Cassart on Important, Sansonnet and Gagneur: a great model of economical breeding.

Cantona: the best of bois Rémont!

Like all bulls in widespread use, Cantona has his supporters and detractors. In the bois Rémont breeding operation, headed by Benoit Cassart where he has been massively used since the beginning, Cantona is definitely the best so far. He does a fantastic job from all points of view: growth, exceptional length, skeletal development, vitality, ease, finesse and meat qualities ... Almost all of his sons have been sold as breeding stock.

CANTONA (BOHERARD CANTONA ET)

(born and bought at David Pearson, CO Laois in Ireland)

IE 221157380755 / Semence: 15376

3 years 6 months, 1345 kg, 1.58 m (+15)

Linear score: Final score 90.4

Born on 15/09/2008

Today, Cantona's daughters are calving and proving to be very good mothers: excellent maternal instinct, suckling capacity, quality calves and already far bigger than the size of the first category of adult cows between 24 and 30 months! Farmers who are disappointed are often those who were expecting miracles from a large bull and hoped to recover in one generation years of selection that tended to focus exclusively on meat. However, watch out for inbreeding on the Baron and Brulot strains or you may find yourself with a small meaty type animal!

Empire d'Ochain	Implant 8315 Beaufaux	Repute ET de My Gageuse 8067 Beaufaux
	Balise d'Ochain	Istamboul de l'Orgelot Eruption d'Ochain

	Boherard urelia ET	As de Trefle du Vanova Castlecuff Quenelle

To correct the inbred small meaty animals, opt rather for Dandi, Goulou, Gagneur or even better ... our French bulls!

Cantona's daughters at Tihange, Custinne

Cantona's son at P. et N. Dave (0472 44 57 81) in Miécret:

Dynamite: the number 1!

MASTICS DOSES

35 MONTHS OLD, AND ALREADY
MORE THAN 1300 KG!

Index carcasses: 113

His mother is the most popular in England: she has had more than 110 calves, ten of which have become AI bulls.

In auctions, his descendants are selling at exorbitant prices. These genes are set to leave something in the breed. The evolution of Dynamite is impressive and he is shattering the record of ADG: 1310 kg at 35 months!

DYNAMITE (SOLWAY VIEW DYNAMITE ET)

(Born and bought at Kevin Watret in Annan, England)

UK 581435200598/ Semence: 15364

2 years 11 months, 1310Kg, 1,50m (+9)

Linear score: Final score 86.7

Born on 24/04/2008

Baron du Bois Bauloye	Affute du Ry Ossogne	Orvet Bois de Bailionville Papila
	Faradiba du Bois Bauloye	Guliver du Coin Vertueuse de Biert
Bringlee Sandy	Elite de l'Orgelot	Adequat de Somme Joconde de l'Orgelot
	Bringlee Nestor	Pedro de Hodoumont Bringlee Kitty

First calf from Dynamite at I. Brouckaert (0496 66 35 80) in Ruddervoorde

Dynamite's son at F. Vanderbiest in Moorsel

If Dynamite is the biggest seller at Fabroca, it is because his calves have notched up an almost clean run of successes in the 4 corners of the country!

EDIFIANT DU PONT DE MESSE

(Born and bought at H. and P-H. CHRISTOPHE in Fexhe le Haut Clocher)

BE 8-53712041 / Semence: 15437

24 months, 902 kg, 1,39 m (+6)

Born on 15/05/2011

Rocky du Pont de Messe	Bijoutier ET de Roupage	Bruegel ET d'Au Chêne
	Nappée du Pont de Messe	Sultane de Roupage
Cavalière du Pont de Messe 93 / 83,8 / 83,6 94 / 70 / 85,6	Héros du Peroy	Ubidet d'Aux Houx
		Louise ET du Pnt de Messe
	Urbanite ET du Pont de Messe	Davidson de l'Ecluse
		Brillante du Peroy
		Notez le ET du Pont de Messe
		Neige du Pont de Messe

The "Pont de Messe" breeding operation run by Henri and Pierre-Henri Christophe was made famous by some of the sires of the BBB breed including Notez-Le, Rocky and Orphéon. And it is these exact same origins that we find in the pedigree of Edifiant, who is the son of Rocky (famous for economic performances) and a great grandson of Notez-Le (famous for the large cows which he sired, including the heaviest national champion in the history of the BBB).

On his mother's side, we find only heavy cows that can be traced back, like Orphéon, to the very large Usurière at Au Chêne (more than 1000 kg and a competition winner) whose embryos were bought by the crafty Sheriff de Fexhe. Rocky's mother was also a prize winner in national competitions, as were the mother and grandmothers of Héros, one of the Fabroca bulls whose offspring were even weightier versions of it. In short, with this big thick breeding bull, there's not much chance of going wrong!

Edifiant is the darling of the fatteners-breeders who know that the weight lies in the length, back and front.

Rocky at Pont de Messe
Reference economic performances

Cavalière at Pont de Messe
A big fat beef cow from an exceptional lineage

Express: one hell of a chest !

RED DOSES

NEW

EXPRESS DU CORTIL GAYOT

(born at Philippe Melotte in Lathuy and bought at Bernard Lamblot in Noville-sur-Mehaigne)

BE 1-577698848 / Semence: 15519

27 months, 943 kg, 1,38 m (+2)

Born on 07/03/2014

For those who think that the kilos are to found in the front and chest, this is the bull for you. Born on a farm reputed for this breed and spotted at a young age by Bernard Lamblot, one of the greatest connoisseurs of the breed, this bull has that extra something that makes you fall in love.

His father Grommit and grandfather Obus come from very good maternal lines and his mother is a good breeder from the Philippe farm.

One of Grommit's first sons is available and from a very good maternal line.

Grommit Hof Ter Zilverberg	Adajio de Bray	Empire d'Ochain
	Clavier Hof Ter Zilverberg	Humaine ET de Bray
Indice du Cortil Gayot	Obus de Somme	Germinal de Fooz
		Zappa Hof Ter Zilverberg

	Florence de St Amand	Jaguar de St Amand
		Carolina de St Amand

Another livestock farm that goes back to the mists of time ... and that is well worth a visit! Marc will trace Farouk's lineage for you as far back as the 1950s! A real encyclopaedia at the head of an incredibly hardy breeding operation. Marc's grandfather was the first in the 1950s to inseminate in his region with his own BBB bulls purchased from the best livestock farms. Farouk's grandmother was the best cow on the farm, Jaguar was a huge bull that won prizes in Brussels and in Libramont and was a grandson of Gaillarde de Saint-Fontaine. Farouk's father comes from the Yvoir livestock farm, the benchmark for size, type and hardiness.

Today, Farouk's calves enjoy unanimous popularity in the four corners of the country. As much for their meaty qualities as for their growth and ease of breeding.

Farouk is unquestionably a safe bet in the Fabroca catalogue and can look forward to a great future.

The size of Farouk's pelvis is exceptional. According to Dutch scientists, this should promote the natural calving of his daughters.

«For me, Farouk's daughters boast all the breeding qualities sought by Fabroca, both on the BBB and on cross-bred mothers.» B. Cassart

Gagneur et Goulu: trouble-free bulls...

WHITE DOSES

Descended from an impressive maternal lineage, Gagneur is a very fertile herd bull whose calves give full satisfaction. Empire, Accord, Notez-le and Savant: Nothing but big economic performances!

With Empire and Accord in the pedigree, Gagneur confirms what we expected of him: good calves, easy to raise, no worries and no excess meat at an early age. **Could this be the future of cattle?**

Gagneur was used in the herd of Renaud Cassart in Groyne (0478 77 24 52), where you will find good young bulls for breeding.

LIMITED STOCK

GAGNEUR DE WIHOGNE

(Born at P and JF Hocks and bought at N en JF Simon in Ouffet)

BE 7-61479358/ Semence: 15367

30 months, 1033 kg, 1,43 m (+6)

Linear score: Final score 88,2

Born on 08/10/2007

GOLDEN BULL DE BIERWA

(born and bought at Hubert Duchêne and Didier Pierrard in Maffe)

BE 5-57354993 / Semence: 23069

22 months, 855 kg, 1,33 (+4)

Né le 28/02/2013

A mother that is a national champion, a sister that is a provincial champion ... like him who was provincial champion in Ciney in 2014.

Add to that the champions found in his father's pedigree and you have one of the most successful pedigrees of the breed. Most important however is that the bull was an effortless suckling calf, he is strong, he serves well, is heavy and makes good calves that are regular and very hardy.

Already almost twenty or so that you can discover by visiting the wonderful livestock farm run by Hubert Duchêne and Didier Pierrard in Maffe. Three generations of passionate farmers will guide you ...

**A pedigree rich
in champions!**

Aphrodite at 5 years.

She was national heifer champion in Libramont in 2011.

*Eristoff daughter of Aphrodite,
provincial champion in Ciney
in 2014, 933 kg at 3 years
and 10 months.*

HORACE DE HAUTE-SOMME

(Born and bought at Jacques et Marie-Paule Lievens in Hingon)

BE 2-50634742 / Semence: 15485

25 months, 897 kg, 1,37 m (+3)

Born on 22/01/2013

His mother is one of the best cows in the history of the blanc-bleu ... and she comes from the best maternal lineage of Jacques and Marie-Paule Lievens' livestock farm, one of the best in Belgium. She incredibly combines the meat sought by the purists and the build and correction appreciated by economists. Horace's sister was already super-regional champion and twice national champion. His brother Garnet had already caught the attention of all connoisseurs before breaking his leg. Horace boasts an exceptional forehead, back and width. His first calves are cast in the family mould...

His mother, descended from an exceptional lineage, is one of the best cows in the history of the Blanc-Bleu.

Giboulée de Haute Somme, sister of Horace, a national champion in 2015, from François Misse in Ouffet. Not only the heaviest, but the widest and tallest!

Obus de Somme	Elan de St Fontaine	Brutal de St Fontaine Aspirine de St Fontaine

	Serena 4560 de Haute Somme	Brutal de St Fontaine Monaco 0916 de Haute Somme

The mother of Horace: EXCEPTIONAL build (1.47 m (+ 15)), an origin, a conformation and breeding!!!

Iguanodon: you love him!

ORANGE DOSES

His father, Important, left good memories and his mother who comes from the Ochain breeding operation is an exceptional cow ... like his grandmother who is none other than Dafydd's mother. This must be a sure deal! And to go by the first calves ... it sure works!

IGUANODON DU BOIS REMONT

(Born at Benoît Cassart in Porcheresse)

BE 5-92291845 / Semente: 15383

3 years 4 months, 1198 kg, 1,51 m (+8)

Born on 02/12/2008

If the Fabroca breeding philosophy is to your liking, then please, you must try Iguanodon! He was conceived to be in the Fabroca catalogue!

Important de la Hasse	Tête des Peupliers	Rédacteur de l'Allemoine
	Grande de la Hasse	Reinette des Peupliers
Energie d'Ochain 100 / 86 / 84,3 85 / 75 / 86,7	Janvier de Warichet	Eclair de la Hutte
		Danseuse de la Hasse
	Adorée d'Ochain	Elkehard et van de W
		Famine de Warichet
		Istamboul de l'Orgelot
		Friandise d'Ochain

Energie d'Ochain 1.45 m (+13) and 1034 kg on 26 June 2010. In 2011, after pasturing, she was sold for BEF 102,500 + VAT on Ciney market! Today, this would be worth around 3500 euros ...

Calves from Iguanodon at JP-Polet in Schaltin (0472 79 15 49):

«I've always succeeded with Ochain's gene stock and to take over from Empire, which I was fortunate to have in my herd, I chose Iguanodon and I'm very happy with the result».

Iguanodon's daughter at A. Bosch (0474 49 88 43) in Cortil- Noirmont:

«Iguanodon is health, growth and ease of breeding».

Immense ... and an all-rounder!

record length!

A former suckling calf, descended from a powerful suckler mother who measures 1.45 m (+13) and a meaty type father 1.54 m (+9)!

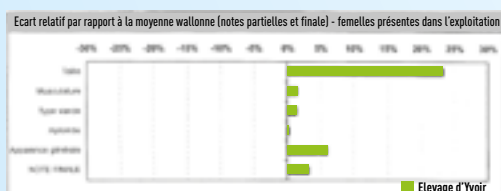

Immense mated naturally on the farm from 13 months and produces excellent semen in terms of quality and quantity. His mother gave 4 calves including a beautiful female and 3 bulls sold for breeding.

Immense, a former suckling calf of which Paul Mosbeux , President of the cattle trading association but also one of the greatest connoisseurs of the breed, said he was the most all-rounded of all the bulls in Fabroca's history .

To go by his calves, Immense will be one of the few BBB bulls to have a strong positive influence on size, length and Average Daily Gain.

Be careful not to use Immense on small heifers because his calves are very long and could get a little heavy to carry.

The Yvoir breeding operation at a glance compared with the Walloon average:

Despite the exceptional size of its cows, the Yvoir breeding operation won 3 first prizes in national competitions in 2009 and 2010 ... with cows of +10 cm on average.

Calves at C. Guillaume (0497 22 84 25)
in Falisolle: «The calves of Immense are really exceptionally long!»

IMMENSE D'YVOIR

(Born and bought at Georges Beguin in Sombrefre)

James Bond: maternal line!

PURPLE DOSES

JAMES BOND VD JORCHRISHOEVE

(born and bought at Dries Timmerman in Jabbeke)

BE2-17251155 / Semence: 15505

18 months, 787 kg, 1,32 m (+6)

Born on 23/08/2014

His mother came first at Libramont in 2015. She weighed 909kg at the age of 3 years after suckling James Bond and now weighs 1050 kg at the age of 4 years. At this same competition, his grandmother Carine weighed 1140k ... and the 3 previous generations also weighed more than 1000kg. The bull was already giving high-quality sperm at the age of 11 months and was a father at 20 months. He combines all the economic criteria: size, length, correction, beautiful head, and exceptional thickness and his two first calves, although correct, drank on their own! We hope to have hit on a rare gem ... but given his paternal origin, James Bond is to be avoided on already very meaty animals.

ADG Record!

v corresponds perfectly to the shape required in today's cattle and meat trade: one of the biggest fronts of the breed, an impressive length, unfailing correction, a good intake capacity and a precocity never seen before (924 kg at 18 months). Better that?

In addition, he comes from the best lineage of the Rocourt breeding operation, like Quartz which was first in the national competition in Libramont and Vatout, an outstanding sire at the farm. Bucheuse also had a calf with Empire that already weighed 610 kg at 10 months. Javanais' mother calved 6 times. With its hyper rounded shoulder and its origins, we advise him on the Empire and Dafydd lineages.

Javanais is a son of Harpon d'Orgelot, which weighed around 1400 kg and was a popular bull for the vitality of his calves. Vireur de Somme, in his time, was also renowned for the size and weight of his offspring.

On the photo, Javanais weighs 1120 kg at 3 years when he is in a very lean condition and has been in the herd constantly for 9 months.

His calves are known for their vitality, Javanais has become a safe bet in the Fabroca catalogue!

JAVANAIS DE ROCOURT

(Born and bought at Paul Brumioul in Rocourt)

ORANGE DOSES

Ochain's gene

From the largest maternal lineage of Léo Cassart's breeding operation, 3 generations of cows over 1000 kg! The son of a father who had an ADG of 2 kg per day at the Bovine selection Centre.

TGV de Fooz, his grandfather was bought at the age of 8 years old when he still weighed 1340 kg for 152 cm. A suckling calf and a son of suckling calves. Exceptional growth performances and, moreover, a width and muscle conformation obtained from double-muscled genetics!

Hirondelle at Ochain has excellent maternal and suckling qualifications. Very fine hide and bones, Hirondelle is very wide in the front and chest. She weighed 1026 kg in the autumn meadow in November 2011. For use on thin stylish animals.

KILOWATT D'OCHAIN

(Born and bought at Léo Cassart in Ochain)

Maillon: the cream of BBB

MAILLON DE WALEFFES

(Born and bought at Manu Laruelle in Les Waleffes)

BE 9-56317456 / Semence: 15465

30 months, 1010 kg, 1,44 m (+6)

born on 20/03/2012

The Waleffes livestock farm is as old as the Ochain livestock farm. In fact, it belongs to the same family.... and the grandfather of Valseur d'Ochain was already called Bienvenu... de Waleffes. But the Waleffes livestock farm is 50 years of presence in the rings and in the livestock associations. Renowned for their correction, Henri and Manu Laruelle have been selling breeding bulls to the four corners of the country for a long time... and the customers keep coming back for more! Before Maillon, we can trace back 9 generations of national class dating back to the famous Tomato de Waleffes the most famous dam on this farm. Alongside the 3 grown up sons of Empire, we have probably also the meatiest of his descendants!

9 generations of great dams!

Maillon's calves at C. et G. Duchemin in Buzet

Maillon's mother deserved a better name

Mannequin: all dressed up for work!

●
GREEN DOSES

Accord is one of the bulls in recent years that could have had its place in the Fabroca range: ease of breeding and ease of use are his strengths. On the mother's side, we have a cow of 900 kg both fertile, a meat producer and suckler. The daughter of Davidson renowned for development and quality, she has a beautiful head, a great colour and a lot of class. Mannequin's great-grandmother is a dam that was purchased by Michael to make embryos.

Mannequin is a former suckling calf that is very complete, balanced, and very upright which should become a pillar of Fabroca.

Calves at B. Lecomte (0472 41 83 69) in Jeneffe: «Since I stopped registering, I have been looking for facility, regularity, growth and hardness. This is what I need to pay my investments. The search for the extreme and first prizes in competitions is too expensive!»

The product of 65 years of selection and a lineage of 8 heavy, hyper-functional cows, the same as Buveur (Linalux) and Westelle d'Ochain (1st at Libramont) in the 90s, Manchester is a vigorous suckling calf and proved a very effective herd bull at Benoit Cassart's farm from an early age. His balance is perfect and his conformation very complete. We can also point out a quality to which we are increasingly attentive: a magnificent head.

Easy to use, he has a very good fertility and his calves have an excellent drinking capacity. With a reasonable weight at birth, his first 11 calves born from natural inseminations all boast a good development, a very well positioned tongue and have suckled spontaneously.

10 years after Empire d'Ochain, Fabroca offers Manchester du Bois Remont, to replace him in your heart!

MANCHESTER DU BOIS REMONT

(Born at Benoit Cassart in Porcheresse)

BE 7-28152375 / Semente: 15486

28 months, 935 kg, 1,40 m (+3)

Irène (141 cm), a large, super-functional cow just the way we like them at Fabroca.

Still very young, the Manchester's calves are already lookers!

Nayakou: he had to be invented!

BLUE DOSES

Giga was great ... but he had two defects! For years, the search for a son free from defects and descended from a heavy cow was our top priority. Unfortunately, of the 6 calves purchased, none was free of defects. One single solution, we took something of a gamble: put a dose of Giga into the best cow on our farm. We had a one in eight chance ... and we gamble paid off! At eight years old, Hilarité had 6 suckling calves including 5 breeding males (Kaki, Puissant's father, is one of them). She also gave 24 embryos in 2 collections and was weighed by the herdbook at 1049 kg in meadow in 2014. Her father TGV (grandson of Dandy du Tilleul) weighed 1340 kg at 8 years old and her mother Bohème was the heaviest in her series at the National in Tournai. As for Cascade, she was the heaviest on our farm and was the daughter of Wissette (Gandhi des Hayons), third in Brussels and in Libramont. Cascade is also the mother of Gigolo. An origin with almost exclusively 1000 kg cows, bulls over 1300 kg ... and without Bourgogne, Brulot, Fausto, Torrero, Osborne, Artaban, Brueghel, Radar, Brutal, Lasso, Elsa, Davina and Empire that is quite a feat! But on top of that descended from the good old big types Ochain, Vanova (Elancée), Fooz (Resplendissante), Tilleul (Dandy, Blondine, Wilhemine, ...), Bouchelet (Ministre, Jardinière) and Orgelot (Déesse) UNIQUE ... like his name! Add to this that NAYAKOU offers the best quality semen in Fabroca's history... Nayakou did doses at 11 months and his first three impeccable calves have already been born!

The heaviest, largest and oldest pedigree in the race!

Elancée du Vanova, a national champion weighing one tonne

Diable, one of the first Fabroca bulls, largely contributed to the brand image of the centre: fertility, facility, vitality and growth. Neptune is a worthy heir!

Calves of Neptune

Obama: a beautiful litter of calves !

 LIGHT BROWN DOSES

Highly anticipated since his father Jackpot is at the end of his career and the top of his popularity thanks to the carcass weights of his descendants, OBAMA boasts many qualities sought by Fabroca: a suckling calf, he has an easy and rustic origin: his grandfather Barbier went to a centre at the age of 7 years and his maternal grandmother, derived from the best breeding lineages of the 1000 Fontaines, lived up to 11 years and gave birth to a calf every year. In addition, he has an excellent mother, a magnificent head, an exceptional back (Jackpot's first quality) and a very fine hide. His breeders Michel and Sébastien are real BBB enthusiasts and have been breeding with careful selection and discernment for many years ...

Regular but not excessive at birth, his calves evolve very well ... like those of his father! He can look forward to a long career...

Obama's calves at C. Guillaume in Falisolle.

For over 10 years now, Fabroca has been gradually gaining your trust thanks to an economical and efficient breeding style. This requires a strict selection based on hardiness, growth and diversified origins. After confirmation of the Istamboul, Dafydd, Empire and Jackpot lineages, Fabroca has the great pleasure of introducing to you OBLIGEANT de BELLE EAU which combines all the qualities to become a big name in the world of BBB in the same vein as his predecessors.

A former suckling calf from one of the oldest BBB breeding operations, grandson of the giant Gitan and son of a heavy cow 100 in size,

Very easy to rear and not too heavy at birth, his calves are evolving very well. When we avoid using it on the Fausto lineages, Obligéant often gives a great deal of satisfaction!

Obligéant's daughter at Guy Gaillard in Tohogne.

OBLIGEANT DE BELLE EAU

(Born at Frédéric Lequeux and bought at B. Lamblot in Noville-sur-Mehaigne)

BE 1-53675747/ Semence: 15430

Oryx: the winning combination!

WHITE DOSES

NEW

Oryx is the perfect combination of the best meaty breed from the farm of Jacques and Marie-Paule Lievens and the hardier breed from the Bois Remont farm.

His father is Horace's brother and was all the rage in the 2015 catalogue before breaking his leg. His mother can be traced back to Georgia of Ochain, one of many daughters born to Baltique of Ochain, the embryo donor offered by Leo Cassart to Benoît when starting up at Bois Remont. Baltique was sold hale and hearty at the age of 13 years and is the ancestor of much of the current livestock at Bois Remont.

It is a reliable line given that almost all the male descendants are earmarked for reproduction. Aside from Empire, we find on the maternal side, 3 generations of non-blood maternal lineages: Agile de Fronville, Hervé Prunscamp and Matelot de Saint-Fontaine, Baltique's father.

ORYX DU BOIS REMONT

(Born at Benoît Cassart in Porcheresse)

BE 2-57914926 / Semence: 15520

24 months, 894 kg, 1,39 m (+6)

Those who know Francis Simon's livestock farm in the heart of the Ardennes will agree: it is possible to produce the best type of BBB fed on grass and almost without external inputs! Obviously, it takes a little more patience than with corn or concentrates ...

With Blackstar and the strain of Francis Simon in the pedigree, the kilos will follow. Picasso is a really tough bull with significant correction!

Picasso is a hardy bull that has the roundness and style of the true double-muscléd bovine.

Tauro: the best looking !

GREEN DOSES

TAURO D'OCHAIN

(Born and bought at Bertrand Cassart in Ochain)

BE 5-53701504 / Semente: 23131

3 ans 9 months, 1080 kg, 1,44 m... after 3 seasons in the herd.

Born on 22/02/2011

Picture perfect, his photograph could illustrate perfectly the Blanc-Bleu in encyclopaedias. In addition to his exceptional muscular conformation, this son of Imperial has a beautiful head, he suckled and he made the herd. His vitality is almost excessive and his beautiful calves are raised easily. By passionately combining the family rustic selection with the meatiest strains of the race, Bertrand regularly wins competitions and with Tauro, managed to get very close to perfection!

Accusing Tauro of a lack of build would be an error of judgment: the length of his shanks and the size of his calves are proof. Moreover, isn't there often 5 cm and over 100 kg of difference between a herd bull and a fair bull?

The magical combination of rustic selection and the best in terms of meat.

Imperial de l'Ecluse	Germinal de Fooz	Lascar 4396 Bocheroule Courtoisie de Fooz
	Davina du Haut d'Arquennes	Artaban de St Fontaine Orleans 9314 Pachis Mott

«On my farm, the Tauro calves are large, long, fine and have all suckled easily. It must be said that before going into the herd, at the age of 16 months, Tauro had a size of + 5cm. «Bertrand Cassart, Ochain 0479 99 71 99

T'es beau de Mehogne

SALMON DOSES

MUSCULATURE

NEW

T'ES BEAU DE MEHOGNE

(born and bought at J. and J-P Sepul in Méan)

BE 2-57751212/ Semence: 15526

29 months, 972 kg, 1,38 m (=)

Born on 18/09/2013

In the early 1970s, T'es Beau de Mehogne made its mark on the Ochain farm for several years. Back 50 years ago, André Sépul Jean's father and Jean-Philippe's grandfather, was already at the forefront of meaty selection in the BBB breed. And since then, they have continued their search for the most consistent breeders in the 4 corners of the country. So it's no coincidence that Imprévu des Hayons, born in the same farm as Spirou and Galopeur, who also earned the farm its reputation in the early 1980s, has been used in the Mehogne farm.

Nor is it a coincidence if, in the pedigree of the mother, we find Subtil de Maffe, the best cow from the Ramelot family stable.

In the BBB as elsewhere, history is eternally repeating itself!

That's what we had really been hoping for on the day we christened the new.

T'es Beau, also the first son of Imprévu in a centre.

Imprévu des Hayons	Fétiche d'Izier	Imigre de St Fontaine
	Gondole des Hayons	Consigne d'Izier
1651 de Mehogbne	Florin de Maffe	Radar ET van Terbeck
	Ombragée de Mehogne	Bambine des Hayons
		Lasso van 't Kookshof
		Subtil 8827 de Maffe
		Galet de la Tournée
		Lady de Mehogne

Mother of T'es Beau

The first calves of T'es Beau have a good roundness but also have a good length. He imposes its breed on crossbred animals.

Tenace: a scientific selection!

If he hadn't been a son of Important, a brother of Iguanodon and nephew of Goulou and Mirador, Tenace would have already joined Fabroca a few years ago already when he passed the 700 kg threshold at 15 months. At that time, he was bought by a consortium of four farmers ... including Fabroca. Now aged 4 years and after only 3 seasons with the herd, the bull is approaching 1400 kg and, above all, has already given over 100 calves whose length and precocity are remarkable.

With a 4% loss rate, a very high ADG for the race (the farm performs comparative weighing as part of genomic research) and very good ease of breeding ...

Fabroca could not overlook a stud of this calibre!

Especially since the multi-character selection based on suckling calves, rigorous and scientifically controlled by Adrien fully corresponds to our conception of the suckling BBB of tomorrow.

Tenace

Ecrin de Wihogne is an economic bull that fits in with the Fabroca philosophy. He has given satisfaction to many users. Generally, the Wihogne bulls, from a selection based on weight and hardiness, do not disappoint. Jackpot and Gagneur are already two good examples.

Tintin joined the herd at an early age at Pascal Blommaert in Damme where he gives excellent calves. He can also be easily used on the Fabroca lineages. Here are the reasons why Tintin was added to our Fabroca catalogue.

Long, deep, and wide in the front and well supported in the back, Tintin has all the qualities to improve the weight of your carcasses.

A daughter at P. Blommaert: «Tintin? 100% success so far, vitality, correction and solidity. Ideal on all very meaty origins.»

Big from big, hardy from hardy, suckling calf from suckling calf, herd bull from a herd bull, a breeding operation that follows strict guidelines, good maternal ancestry, a clean and easy to use origin ... what more can you want for profitable breeding ? It is simply the philosophy that has made Fabroca the success story it is!

Indeed, apart from Jasmin (who still made the weight through her big front ...), the entire pedigree is growing: Rio was up +4 when he left the herd, Jeteur was a big son of the Ministre, the giant Arlequin needs no introduction, Nestlé weighed 815 kg at 18 months (he had been purchased by Fabroca but ... IBR vaccinated), Libellule was the biggest cow from Falgi and Indien (son of the heavy Affuté) is the heaviest bull Pierre Mailleux (Sobemax) has loaded in his career with a carcass weight of 1005 kg!!! And Peter has already loaded a few ... The first calves are living up to expectations!

Vaucluse's calves at Cosse in Jauvelan: «Vaucluse is a real rustic bull, easy to use and whose calves give complete satisfaction” JP Cosse.

VAUCLUSE DU FALGI

(Born and bought at Christian Guillaume in Falisolle)

BE 1-27305360 / Semence: 15444

1 year and 9 months, 786 kg, 1,34 m (+5)*

Born on 02/04/2011

* Vaucluse joined the herd from 15 to 19 months

		Diabte de l'Orgelot
		Quittance Beaufaux

The Beaufaux livestock farm is one of our favourite sources, not only due to the intelligence and human qualities of the breeder, but also due to the high level of its cattle. This is the home of the father of Empire, the great-grandfather of Dafydd and Rutabaga. What a stroke of genius to cross the Fringant the great with Giga the giant! Do you remember the mothers of these two studs?

Top notch! That's the kind of genetics that could possibly make the race grow ... We had long dreamed of finding a descendant of Giga free from the defects and with heavy origins! Mission accomplished.

Xylophone is just the right type. He is even a perfect match for cross-bred animals by adding finesse and musculature.

Xylophone X Ecolo at B.Cassart: Jean Mailleux's super type is always needed ... even on crossed breeds!

Ultime, a big cow like Giga knows how to do it.

**DANDY (Brennand Dandy)***(Born and bought at JC WALKER in Clitheroe, England)*

Ecolo: ADG turbo !

ECOLO, charolais bull type m-h/m-h

(Born at GAEC Gauthie in Moulin and bought in Jean-Marie Gillon, Mortroux)

FR 5812209707 / Semence: 19891

24 months, 1086 kg, 1,43 m

Born on 15/04/2009

Born in a highly reputed Charolais breeding operation, a regular prize winner in national competitions (350 calvings per year), Ecolo is the grandson of a former champion of Paris and of a very heavy mother. Its thickness is impressive for a bull that has no Blanc Bleu blood in its veins. Followed by the authorities of the Charolais breed, he already weighed 383 kg at 210 days and was one of the best animal on the farm in terms of ADG.

From another lineage to Artois, Ecolo has everything going for it to yield more meat than its predecessor. And it is not disappointing ...

Ecolo can be seen in the herd at our friend's farm Christophe Toussaint (0495 22 64 92) in Recogne.

Aramis	Tyrolien
	Olympiade
Sibelle	Noceur
	Ostie

*Lot of Ecolo bulls from Marc Buydens in Geetbets:
«We use Ecolo both on BBB and on the daughters of Sansonnet and Artois. This has brought about a dramatic increase in ADG (+200 g) and a comparable quality to the BBB. We have never sold 17 month bulls of this weight before».*

Fortiche: if we had to pick one it would be him!

PISTACHIO DOSI

Atica	Sablero	Oursin
		Landaise
Délicieuse	Pépita	Landineau
		Idylle
	Ronchon	Intrus
		Mouffette
	Amoureuse	Potiron
		Marjolaine

At the national Parthenais competition he weighed 300 kg more than the average for his section, 1105 kg at 26 months. His mother was a first prize winner and his sister was also crowned champion. He jumped cows in the herd at 16 months and his purebred calves stand out from the bunch. For the rest, see the photo, the video on the website and make up your own mind ...

Are you happy with Sansonnet? Fortiche is much more double-muscled, much wider, as big and even heavier ... but let's not count our chickens before they hatch ... We still have 2 more months to wait to see the first calves from a BBB.

Fortiche alone perfectly illustrates the will of Fabroca to find innovative solutions for BBB inbreeding while preserving levels of muscle that are more than sufficient for the current market. «The Fortiche calves on Parthenais cows stand out from others because of their development, their backs, their muscle conformation and their exceptional length. zOn meaty blues, this should be exceptional.»

Laurent Jarry (+33 6 88 89 87 20) in Montcoutant, Fortiche seller and owner of around fifteen calves.

FORTICHE, taureau parthenais typé m-h/m-h

(Born at GAEC Montpiron in 44520 la Meilleraye de Bretagne
+33 6 89 96 64 87 and bought with Christophe Toussaint at Laurent Jarry EARL
in Montcoutant +33 6 88 89 87 20)

FR 4439310975 / Semence: 20173

3 years and 10 months, 1413 kg, 1,57 m

Born on 19/07/2010

« 17 months bulls at B. Rabeux in Miecet:
«Here, with Fortiche, we are sure to have kilos and finesse!»»

Goulu: the blond d'Aquitaine !

GOULU, blond d'aquitaine bull

(born at EAR Barbier and bought at Frédéric Planté-Moulet)

FR 5345118270 / Semence: 20449

29 months, 1120 kg

This excellent blond d'Aquitaine bull was born into one of the best farms of the race and was spotted due to its muscles by Bernard and Pierre Corbiaux of Humain. He is the most extreme solution to restore size to double-muscled cattle but beware, unlike our Parthenais and Charolais bulls, **the blondes do not carry the double-muscled gene MH/MH.**

WHITE DOSES

CHAROLAIS
CULARDS

Exceptional reproduction!

IMPOSANT

(born and bought at GAEC Sureau in Treignat)

FR 0314963020 / Semence: 20432

25 months, 1075 kg, 1,42 m

Born on 2/01/2013

Spotted in the heart of rural France, in the heart of the birthplace of the Charolais race by Yacin a young French veterinary surgeon and fan of the BBB, Imposant is a real phenomenon. Coming from a renowned livestock farm and born to a mother weighing in at more than 1000kg, Imposant has more than all the qualities needed to advantageously replace Artois. Before arriving in Belgium Imposant was champion at the Meat competition in Montluçon.

A pelvis of an exceptional width, a back like a table and leather that is the finest ever seen on a Charolais by the Belgian specialists of the double-musclé Charolais.

Filou	Davaillon Trompette
Bienvenue	Ursus Ushuaia

At 18 months, Imposant already weighed 857 kg.

Of all the crossbred calves from the Fabroca bulls, the Imposants are the thickest.

Sansonnet: one more time!

GREEN DOSES

Exceptional meat quality !

SANSONNET, parthenais bull

(Born at C. Proust and bought at C. Toussaint and J. Martin in Amay)

FR 8601141460 / Semence: 19482

3 years and 8 months, 1400 kg, 1,63m

"Crossbreeding with Parthenais and Charolais has given me a great deal of satisfaction over the past few years. Finished cows of more than 1000 kg and bulls that go to slaughter at 17 months are no longer exceptions."

Marc Buydens (0495/57 79 49)

Jackpot x Sansonnet at B. Rabeux

"Crossbreeding is a good thing during the first generation. Then when you come back with good and heavy BBB, it is just simply the best! Since I've been working with Fabroca and crossbreeding, I have gained more than 100 kg in liveweight on my bulls under 19 months. This is where the profitability lies. "
